SUMMARY

Software Engineer at Cloudvik with 2+ years of experience building reliable backend and cloud systems, with a focus on GenAI tooling. AWS Certified Solutions Architect – Associate. I care about software that meets real user needs.

SKILLS

Programming: Java, Python, C++, JavaScript, SQL, Bash
Frameworks: Spring Boot, Node.js, FastAPI, React, Kafka
Cloud & DevOps: AWS (Solutions Architect Certified), GCP, Docker, Kubernetes, Terraform
Tools & Data: JSON, XML, LangChain, RAG, MySQL, MongoDB, PostgreSQL

EDUCATION

Oregon State University — Corvallis, OR
Master of Science in Computer Science (GPA: 3.91/4.0) — *Mar 2023 – Jun 2025*

Jawaharlal Nehru Technological University — Hyderabad, India
Bachelor of Technology in Computer Science (GPA: 7.25/10.0) — *Jul 2018 – Aug 2022*

EXPERIENCE

Software Engineer — Sep 2025 – Present
Cloudvik — *Remote*
- Building Spring Boot microservices that orchestrate LangChain extraction pipelines for enterprise document processing.
- Developing REST APIs for a sensor integration platform that ingests real-time telemetry and syncs it with cloud infrastructure.
- Leveraging an AI coding harness and MCP tools to accelerate implementation, reviews, and documentation; applying AI governance through scoped tool access, human review gates, and auditable changes.

Graduate Teaching Assistant — Mar 2025 – Jun 2025
Oregon State University — *Corvallis, OR*
- Supported a group of over 100 students in Parallel Programming, helping them navigate concepts like multi-threading and concurrent patterns.

Graduate Research Assistant — Apr 2024 – Mar 2025
Oregon State University — *Corvallis, OR*
- Participated in the development of HeteroBugDetect, a framework designed to identify platform-specific bugs in scientific software (LAMMPS).
- Assisted in coordinating automated testing workflows on distributed HPC systems to improve the efficiency of identifying software vulnerabilities.

Associate Software Developer — Jun 2021 – Mar 2023
Zemoso Technologies — *Hyderabad, India*
- Contributed to a team building a financial data dashboard for TransUnion that provided real-time visualization of credit trends and risk metrics for enterprise users.
- Helped optimize database structures for TransUnion's credit record management, which improved data retrieval speeds for financial modules.
- Assisted in implementing secure OAuth 2.0 authentication workflows to protect sensitive consumer financial data and maintain compliance standards.

Mobile Application Developer Intern — Jul 2021 – Sep 2021
FindMind Analytics — *Remote*
- Developed ZuPay, a mobile banking app for teenagers with parental controls, using Flutter for cross-platform iOS and Android.
- Launched on the iOS and Android app stores; the app reached 10,000+ active users.

CERTIFICATIONS, PUBLICATIONS & ACHIEVEMENTS

AWS Certified Solutions Architect – Associate (Jan 2026).

IEEE AIxSE 2025: Co-authored "LLM-Guided Differential Fuzzing for Detecting Platform-Specific Bugs in Scientific Applications".

1st Place, OSU Winter Hackathon (2024): Directed development of "Guitar Hub," an AI-powered song analysis tool using OpenAI and Hugging Face.
